THE EXPENDITURES FOR PENSIONS for the year ending June 30, as now officially stated, amounted to \$109,357,534. In the previous year we paid \$87,644,779 11, while in the year before that we paid \$80,288,508 77. The cost of the German army, it may be interesting to note, is for this year estimated at \$91,726,293. Besides our pensions our army costs \$30,000,000.

#### Will Not President Harrison or Secretary Blaine Speak to Canada!

It would not under ordinary circumstances be considered good form-indeed it should be almost deemed contra bonos mores-for a government to meddle with a party canvass going on in a foreign state or colony, like that now raging in Canada between tories and liberals. In the present case one partythe tory-endeavors to so exploit, for its own purposes, the government at Washington as to prejudice Canadian liberal candidates by implying that Secretary Blaine will consider favorably Sir John Macdonald's plan of "restricted reciprocity," but that the liberal plan of "unrestricted reciprocity," or absolute free trade between ourselves and Canada, will not be acceptable at Washington. In other words, the tories put it about by the mouth of Sir John Macdonald, and his colleague, Sir Charles Tupper, who is the Canadian High Commissioner at London, that the government at Washington prefers a present tory victory in Canada.

The failure of the republican leaders at Washington to successfully promote the passage by Congress of a joint resolution commanding perfect free trade with Canada, does, we are sorry to say, look as if Sir John and Sir Charles had more or less warrant for what they are saying about the preferences of President Harrison's administration. If, however, they two are in Canada using the Harrison administration without warrant in the pending Canadian canvass Mr. Blaine will be clearly justified in so saying, even although he be the American Minister of Foreign Affairs.

The dispute and obscurity in Canada is probably in great part over what Mr. Blaine has said and done about free trade between us and Canadians. He is a "magnetic" diplomatist. The democrats in Washington urge, HERRMANN'S THEATRE-ALL THE COMPORTS OF HOME, | if Senator Carlisle's Senate proposals be an DALY'S THEATRE—STODDARD'S LECTURE, 11 A. M.;

HOPPING D. administration and Total Control of the Hopping D. ad Harrison administration and republican Congressmen urge? What has Mr. Blaine said to Sir Julian Pauncefote on the subject? Canadian tories and liberals are now disputing over that. It is the turning point of the canvass. The liberals affirm that it will be in vain to vote to uphold Sir John and the tories if new trade arrangements with the United States are sought, and will be in vain because the government at Washington has said it will have nothing to do with the tory scheme of "restricted reciprocity." But the tories assert, on the other hand, that the tory plan was last December started from Ot-Notice is hereby given to the public that no tawn through London for Washington beperson is authorized to solicit advertisements or cause Mr. Blaine invited it. On Tuesday subscriptions for this paper and that it employs evening, the 17th inst., Sir Charles Tupper said in Montreal that Sir John Macdonald. if sustained by the voters, would on March 5 go to Washington, not to negotiate for "unrestricted reciprocity," but to negotiate by "special invitation" for "restricted reciprocity," and "the prospect was exceptionally good that he would be successful."

Sir John Macdonald said in his speech on the same occasion 'that his government were prepared to entertain proposals of reciprocal trade in products satisfactory to both parties, but they were not prepared to accept unrestricted reciprocity, which practically meant taxation without representation."

How can they two honestly express such confidence in defeating "unrestricted reciprocity" and gaining "restricted reciprocity" in negotiations with Mr. Blaine if he has really said that he will have nothing to do with "restricted reciprocity?"

Mr. Longley, a leader of the Canadian liberals, said in Washington on the 1st of this path of the liberals is "that the partisans of the Dominion government maintain that if precity the United States would not meet her half way, and might not agree to the plan."

He added that "it is immensely imshould be an explicit statement by Congress | next few months. on this point.'

He said, finally: - "One of my chief objects in coming here is to urge this action | every day as the season progresses. on the part of the American Congress. Such a policy sounds to me statesmanlike. It would put an end to all trouble between the

the McKinley law:-

the McKiuley law:—

I have it from the mouths of those who were in communication with Mr. McKinley on the matter that he and his friends made every effort to prevent any concession in favor of Canada being made in the measure while going through Congress, it is a singular coincidence if the measure is not retaliatory on Canada that Canada should be the country most affected. What country does an increased duty on hay affect except the Dominion? What country does an increased duty on eggs hit but Canada? The same with regard to poultry, barley and other articles. Mr. McKinley may say that his tariff is not retaliatory on Canada, but Sir Richard Cartwright and the opposition have been saying differently on a hundred platforms since last session." saying differ

He then went on to intimate a denial that the Harrison administration had given reasons for any one to assume that it would reject the tory plan for reciprocity confined to a few national products like the Marcy-Elgin treaty of 1854. He made these further declarations:-

ther declarations:—

The report as to the procise nature of the United States' proposal has simply been manufactured by the opposition press. Regarding Congressman Baker's letter to Mr. Blaine I have no doubt that a plan was laid to extract an expression of opinion from Mr. Blaine and then to publish the correspondence. Mr. Blaine says there are no negotiations whatever on foot for a reciprocity treaty with Canadas. I am not at liberty to make a full statement of the facts, but I am not aware that any person has been authorized to say that negotiations for a reciprocity treaty between the United States and Canada are in progress. It is true, however, that, as announced a few days ago, Mr. Blaine has expressed to Sir Julian Faunesfots a desire for extended trade relations between the two countries, and has said further that he would like to discuss in an unofficial manner with Sir Julian and one or more delegates from Canada the whole question of trade relations with a view of arriving at a basis for official negotiations. Acting on this auggestion the Canadian government has requested Her Majesty's government to propose a joint commission for the purpose.

The only inference to be fairly drawn from those statements and the tory canvass in Canada is that Mr. Blaine did intimate to Canada a willingness to enter on negotiations with Canada for "restricted reciprocity." The liberals deny that Mr. Blaine has given such an intimation. The real issue, therefore, in Canada is what Secretary Blaine has said or done and what President Harrison has authorized or permitted his Secretary to say or do in this matter.

Is it not the obvious duty of President Harrison and Secretary Blaine not "to lie low and keep dark," but to forthwith speak out clearly and distinctly, unless it be that they are both really in favor of the Canadian tories in order to defeat free trade?

#### Secretary of the Treasury.

Ex-Governor Foster, of Ohio, will make a good Secretary of the Treasury-so the republicans tell us. He occupies the same position on the currency question that Windom did, and that is a matter of prime importance to the business community.

To the political motives which prompted his selection we are utterly indifferent. We pay no attention to the rumor that Harrison does not feel able to cope single handed with Blaine, that Foster will keep an eye on the Maine statesman and post the President as to the ways that are dark and the tricks that are vain. Harrison, it seems, has a vague suspicion that Blaine may rob him of a renomination, on which he has set his heart, and Foster, who is an experienced politician, will look after the interests of his superior.

These family quarrels are not particularly exciting, though they sometimes prove amusing. Hurrison's ambition for a second term and Baine's hope to get a first term will not interfere seriously with a democratic victory in '92. In the meantime, however, it is pleasant to know that our finances will be in the hands of a man who believes

Frobably before the swiftest ocean greyhound could land its silver cargo at New York the last gold dollar within reach would be safely hidden away in private boxes and in the vaults of safe deposit companies, to be brought out only by a high premium for exportation.—Secretary Window's Last Words.

## The Proposed Naval Revi

A naval review in the harbor of New York as an accessory to the World's Fair in Chicago in 1893 can be made a very interesting affair, especially if any considerable number of foreign ships take part in it.

If, for instance, Great Britain should send a fleet of twenty or twenty-five of her best battle ships and twice that number of cruisers they would present to our people an object lesson of striking value,

Not even the most stupid could fail to understand what would be the danger to our seaports if such a fleet were here on a warlike instead of a peaceful errand.

If an appropriation for such a review will tend toward securing a contrast between our weakness and other nations' strength, it will be money well spent.

## In Parliament,

There isn's much to laugh at, mourn over or wonder about in British politics just now. The tories are rumbling along a macadamized road, fearing no attack by the liberals. The Irish question is quiescent, M'Carthy is showing that nature never intended him for a leader and Parnell is twirling the rebels with thumb and finger in the ordinary and old fashioned way.

Gladstone is happy and cheerful, but somewhat languid. His forces are pretty well scattered or dazed and resting in the hope of getting their second wind. There is no excitement in opposition, because there is nothing to oppose. So Morley and Harcourt, who are spoiling for the exercise which they can't get, are grumbling at the eternal unfitness of things in general and indorsing the wish of Micawber that something, no matter what, would turn up, no matter how. They pass their time in dull expectancy and languish under the doom of nobody to fight and nothing to fight for. It must be admitted that the present ses-

sion of Parliament is tame and insipid.

## Thieves as Census Takers,

Inspector Byrnes is a very interesting talker when on the witness stand,

Mr. Bartlett asked him whether any of Porter's census enumerators were known to him as untrustworthy persons.

He replied "Yes!" with an emphasis which ought to make Porter's hair curl. He named two of them, whose pictures hang in the Rogues' Gallery. One is a professional thief; the other is a notorious shoplifter.

Behind that census machinery which robbed New York of two hundred thousand inhabitants and her proper representation in Congress and the electoral college, there was a vast deal of humbug and chicanery. We may not get at the details of this rascality yet awhile, for Porter has skilfully covered up his tracks and the republicans stand by him because they are gainers by the fraud, but some time the story will be told, and we shall take great satisfaction in helping to bury the men who are at the bottom of the plot.

As poison in the blood permeates arteries, veins, nerves, brain and heart and speedils brings paralysis or death, so does a debased or fluctuating currency permeate all the arteries of trade, paralyze all kinds of business and bring disaster to all classes of people. It is as impossible for commerce to flourish with such an instrument as it is for the human body to grow strong and vigorous with a deadly poison lurking in the blood.—Scoretary Window's Last Words.

#### The Herald's Fog Predictions.

On Friday morning the HERALD weather forecasts predicted that there would be fog on the coasts around New York both on Friday and Saturday, and these forecasts gave notice that the fog would continue in this vicinity. Fog in this city and environs is so frequently, if not invariably, attended by disastrous consequences that such predictions should be carefully noted, especially by the shipping community and all who have anything to do with the running of railroad trains.

#### Well, Why Not?

Mr. Blaine's reciprocity with Brazil might be a good thing but for two reasons. First, there isn't any reciprocity in it; second, Brazil hasn't accepted it yet. The announcement was a little "previous,"

Still, it afforded an opportunity to push the subsidy scheme, which was perhaps what Mr. Harrison is after. What is a subsidy? Well, when a company owns a line of steamships and can't make it pay, some Congressman offers an appropriation bill to make up the deficit from the federal Treas-

THE POPULARITY of the American typical horse, the trotter, is attested by the results of the past two weeks' auction sales at Lexington, Ky.

## PERSONAL INTELLIGENCE.

HEBALD WEATHER FORECASTS .- The "cold wave" will prebably not be very intense in this section, but will cause a further fall of temperature east of 12 or 15 degrees Fahrenheit in the Upper Hudson and Upper Delaware valleys. The cyclone moving east from California yesterday will probably advance toward the Central Mississippi Valley today, and give rise to heavy precipitation in that region and the Ohio basin by to-morrow. Temperature fell in the United States yesterday, except in the transmississippi districts. The chief minima reported were 8 degrees below zero at Fort Assiniboine, Edmonton, B. ITALIAN MUSIC DRAWS.

Sidelights and Flashes from the Stage and Concert Room in Town and Out of Town.

TO THE EDITOR OF THE HERALD :-I have only one remark to make in reply to

Mme. Davenport. It is this. I play Sardou and Emile Moreau's piece as I

played it in Paris, adding no word to it and taking no word from it.

Mme. Davenport has put before the American public a piece which had not been revised by the authors.

As to the conception of my part, my views are opposed to Fanny Davenport's.

Cleopatra was an amorous and delicate woman. She has lived through the ages not because she was a great queen, but because she was an ideally womanly woman.

She remains a type of love and witchery. She was not admirably beautiful-she was charming. She had a tall and slender figure, a melodious voice and a nose disproportionately long, redeemed by large and languorous eyes. In Plutarch's portrait of her I see no trace of

the strapping woman or the violent Amazon whom Mme. Davenport pictures. Sardou and Emile Moreau regard me as their

ideal Cleopatra. Mme. Davenport will permit me to rest satis-

fied with their opinion. SARAH BERNHARDT.

ITALIAN MUSIC AT THE LENOX. If Messrs. Abbey and Grau's venture with Italian opera next season can be forecast by the public reception of the purely Italian programme offered last night at the Lenox Lyceum there is not much to fear, for the announcement drew an immense audience, and the singing of Signor Campanini and Mile. de Vere was vooiferously applauded.

Mr. Thomas' orchestra in the dainty Boccherini

menuetto and the serenata from the Sgambati symphony were at their best, and brought out all the beauty and grace of the compositions with true musical refinement. In the "Lear" and "William Tell" overtures they presented broad contrasts to these with excellent effect. Signor Campanini was in fine voice. I have sel-dom heard him sing in the duo from "Aïda" with

cacy of phrasing than last night. His weesa voce, too, was delightful, and he scored quite a triumph, being very heartily encored and several times recalled. Mile, de Vere shared in the honors.

Signer Campanini also sang the "Cielo e Mar," from "Gioconda," and as an encore the "La Donna e Mobile," with great spirit.

Mile, De Vere, after the "Caro Nome" from "Rigoletto," was much applauded. Mile, Bertini and Signor Bologna were also upon the programme, the latter ably filling the place of Signor Sartoris, who was prevented by indisposition from singing the "Ebreo" arla.

LADY GAY FIFTY YEARS OLD. Fifty years ago the coming 4th of March the first erformance of Dion Boucleault's greatest play. "London Assurance," took place at Covent Garden Theatre, London. Some time before his death Mr. Soucieault expressed a wish that the anniversary might be fittingly celabrated in some way. In ac cordance with that idea Miss Rose Coghlan, whose "Ha, ha," laughed the farmer, as he saw his appearance in the play is so well remembered by those who saw the Wallack production twelve years'

ago, will play the piece on March 4, at the National ago, will play the piece on March 4, at the National Theatre, Washington, and make a special occasion of it.

Miss Cogh'an, of course, will be the Lady Gay on this occasion, with John T. Sullivan, her leading man, as Dazzle and the other parts by the rest of her company. A theatre party from New York will go down to Washington to see the performance, and there will be prominent professional people present from Philadelphia and other cities. Besides Miss Coghlan Luke Martin, who will be the Cool, were also in the Wallack production. Miss Coghlan was Mr. Boucleault's favorite actress in the part of Lady Gay, which was done at Covent Garden by the famous Mrs. Nesbitt.

STAGE AND MUSIC MEMS,

The third season of English grand opera at the Grand Opera House will begin on May 24 and con. tinue for six weeks. The following operas will be given in the order named:-"Lucia di Lammermoor," which has not been sung in English in ten years; "Fra Diavolo," which has not been heard in English in twelve years: "Carmen," "Il Trovatore," "Martha' and "Faust." The company will include Mme Pauline L'Allemand, Mile. Louise Natalie, Mrs. Bella Thompkins, Miss Fanny Meyers, Miss Stella Beaumont, Mr. Charles Bassett, Mr. Frank Baxter, ignor Montegriffo, Signor Tagliapietra, Mr. George Edwards and Mr. William Ludwig. The company will be under the management of Mr. T. Henry

Another programme of American music is announced, and this time in Brooklyn, by the management of the Wiske Orchestral Concerts. The 'Marie Waltzes," composed by Mr. Americo Gori, which received the first honorable mention in the HERALD Prize Waltz Contest, will be played by the Thomas Orchestra, and Mr. Harry Rowe Shelley's new violin concerto, played (for the first time) by Miss Maud Powell, with a remanza for four French horns are among the announced nov-

Mr. H. E. Krehbiel brings his course of six isctures on "Richard Wagner and His Dramas" to the Assembly Rooms of the Metropolitan Opera House soon. On Tuesday he delivers his first, on "The Lyrie Drama and Wagner's Art Work," which will be followed by lectures on "Farsifal," "Der Ring ies Nibelungen," "Tristan and Isolde," and "Die Meistersinger.' To-night Mr. Lawrence Barrett will revive W. J.

Wills' romantic four act drama of "Harebell, the Man of Airlie," at the Broadway. The play will be presented for one week. On Monday, March 2. Mr. Edwin Booth will reappear at the Broadway in "The Merchant of Venice." His engagement will extend over four weeks.

On account of severe illness Mr. Frank Oates Rose did not deliver his lecture, "Through London with Dickens," last evening. Moriz Rosenthal, the planist who made such a
